THE APPRAISAL OF CONTENT IS TENTATIVE.  
(FOR KEY SEE REVERSE)

25X1X

1. On 25 and 26 April 1954, two radar installations similar to the SCR-270-DA type<sup>1</sup> were observed on Hsiaokang (1420/3263) Road at Chungshan (formerly Lingnan) University in the village of K'anglo (1660/2867) on Honan Island, Canton.<sup>2</sup>
2. One installation was at the Hsiaokang School gate directly opposite a mound of earth 40 feet high about 600 yards south of the public road.<sup>3</sup> A small grey house next to the installation was occupied by ten soldiers.
3. The second radar installation was about a half a kilometer east of the first and 200 yards south of the Hsiaokang Road in a wooded area on a rise ten feet high. There were ten nearby barracks which could house several thousand men (sic).
4. About 52 yards east of the second installation were eight medium-sized anti-aircraft guns and four anti-aircraft machine guns which were guarded by 40 armed soldiers.

25X1A<sup>5</sup>. During three hours of observation on two consecutive days the radar antennae turned continuously even during rain.

1. [REDACTED]

25X1X

2. [REDACTED] reported four radar antennae east of the Hsiaochiang-Lingnan University Road in August 1953.

25X1A

3. Comment. This mound of earth was bare of trees and should be observable from the air.
